

# Care home residents experience increased well-being, sleep and dignity with TENA Solutions

An improved quality of life, a good night's sleep and enhanced well-being. These are just some of the benefits of using TENA Solutions according to 8 out of 10 care home staff in more than 85 care homes in Europe, US and Canada.<sup>1</sup>

According to a new global assessment, using TENA® routines and products results in an improved quality of life for residents and allows care home staff to spend less time managing incontinence and more time with the residents – with three-quarters noting an improved working environment.<sup>1</sup>

What is more, around 85% of care home staff assessed felt that the products were easier to handle during changes and toileting, had an improved fit and an increased capacity to keep the skin dry.<sup>1</sup>

Almost three quarters agreed that incontinence-related odour was reduced<sup>1</sup> and approximately 80% said TENA® products were more discreet and comfortable than previous products used.<sup>1</sup>

TENA Solutions helps care homes reduce product consumption by eliminating unnecessary product changes and waste. The TENA Solutions approach can also reduce the amount of money spent on skin treatment and laundry costs due to leakage, resulting in a total budget reduction of around a third (29%).<sup>2</sup>

## About TENA Solutions

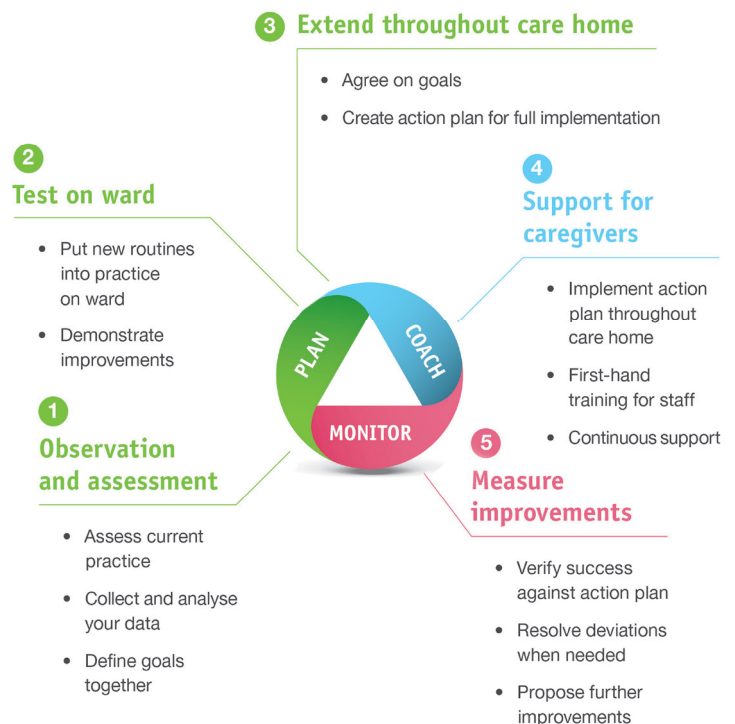

TENA Solutions is a best practice approach where TENA® experts work directly with care home teams to improve continence care in a way that is good for residents, care home staff and the environment.

Results show that care improved in 95% of the care homes worldwide that implemented TENA Solutions. These improvements are the result of a unique and structured way of working in partnership.<sup>2</sup>

TENA Solutions for care homes is based on extensive cooperation and experience gained from hundreds of care homes.

SCA has worked closely with management, head nurses and caregivers for over 50 years and introduced best-practice routines and innovative products that help transform continence care and personal hygiene.

## Our proven 3-stage approach

1. SCA data on file (staff questionnaires): All statistics are based on results from between 85-103 TENA Solutions case studies involving 913-1105 respondents (depending on question) around the world, mainly Europe but also USA and Canada. Results vary across countries and care homes. 2012-14.  
2. Where TENA Solutions are implemented around the world. SCA Data on file. All statistics are based on average percentages from between 85-181 TENA Solutions case studies around the world, mainly Europe but also USA, Canada and China. Results vary across countries and care homes 2011-2013.
